### **Journal Articles and Books**

#### **Peer Reviewed**

Sources appearing in the peer-reviewed section are identified as such by (a) cross referencing them with the publications they appear in to identify them as academic peer-reviewed, or (b) because specific verification that the source publication uses a process of rigorous academic peer-review has been submitted to NEWEEP staff. If we cannot verify that a publication meets the academic peer-reviewed standard, we have placed the article from that publication in the "Unknown Review Process" category.
